Application No. 10/679,034
Response to Office action mailed July 3, 2007**REMARKS**

The Examiner has imposed a restriction requirement dividing the pending claims into five groups as follows:

- I. Claims 1-31, drawn to a method of making a transgenic avian, classified in class 800 and subclass 21.
- II. Claims 32-37, drawn to a nucleic acid for expression of a heterologous polypeptide in egg white of a transgenic chicken, comprising SEQ ID NO: 42 and a nucleic acid sequence encoding a heterologous polypeptide, classified in class 435 and subclass 320.1.
- III. Claims 38-45, drawn to a transgenic avian that produces at least one heterologous polypeptide in egg white not made using a eukaryotic viral vector and a transgenic avian made by the method of claim 1, classified in class 800, subclass 19.
- IV. Claim 46 and 47, drawn to an egg made by the transgenic avian of claims 38, 39 or 43, classified in class 426, subclass 47.
- V. Claims 48-52, drawn to proteins, classified in various classes and subclasses.

Applicants elect the Group I claims without traverse.

If any issues remain to be addressed in this matter, which might be resolved by discussion, the Examiner is respectfully requested to call applicants' undersigned counsel at the number indicated below.

Respectfully submitted,

Kyle Yesland, 706-227-1170, ext 233
